

Brian Fenstermacher

I am presently serving on the Board of Directors as Secretary. I have held this position since last summer. I have been an owner in White Horse since 2010. I spend a large amount of my summer at White Horse with my family and have enjoyed it tremendously. I graduated at the top of my class from Lehigh University with a bachelor's degree in computer engineering. I work for Hitachi Medical Systems as a Software Engineering Manager for the MRI amplifier division. I am very loyal and have worked for the same company for 26 years. At my church I have held the position of President, Vice President, and have been the Treasurer for the past 6 years. I am presently on Church council. I was the recipient of the volunteer of the year award a few years ago. I am also the Property Chairperson. I have been boating for 25 years and presently own a 23 foot Grady White. Fellow

boaters have probably seen me at the docks catching minnows, tending to my boat, or telling fish stories.

Education: BS in Computer Engineering from Lehigh University in 1991

Present Employment: Software Engineering Manager, Hitachi Medical Systems.

Relevant Experience: White Horse Park Board of Directors Secretary for 1 year, Church council member for 9 years, Council President for 2 years, Vice President for 1 year, Treasurer for 6 years, Property Chairperson for 9 years.

Goals if I become board member: Keep maintaining and improving the community without incurring expenses that are too large to handle. Keep the marina and water front access a focal point of the community. The marina and water front access bring value to all property owners. I will listen to concerns of the community and address them; while trying to represent the interest of the community as whole.
