

Park Manager's Report

7/17/2018

Meghan Jacobs started in the office yesterday as office assistant. Stop by and say hi.

The lights at the marina have been replaced.

The railings at the playground fence are being replaced today. They are also fixing the broken post between 49 & 50.

Still waiting on permits for the pipe replacement. I emailed Chris again, and advised him of the upcoming meeting.

Sewer pumps seem to be holding their own for now. Hope to hear something on the repairs, soon.

County Commissioner will be at the BOD meeting 21 July 2018 at 10:00am to answer your questions concerning full time residency.
