

Pool – The pool cameras are out. There is a short in the wiring (probably under the concrete). Doug & I will look at alternatives and get an estimate to you. New ropes have been installed at the pool.

Cleaning Services – Mermaid Cleaners to start as soon as possible - hopefully July 1st.

Road Surface – The steel plates are being installed today. Chris McCabe is supposed to get back to me today or tomorrow about the permits for the pipe.

Marina - New LED lights for the marina have been ordered. We will get them installed as soon as possible.
