

Security Update 8/17/2020

Good Morning Neighbors!

It was reported to me, this morning, that our security records have been removed from the record book and all of the dividers are dismantled. The card box that is used to track visitors was tampered with, mixed up, and we don't know the extent to which it has been vandalized. There is video footage of individuals congregating around and entering the guard shack last night.

We are handling these things. Another problem is that the back was stuck in the open position. An owner chose to post a picture of the back gate, in open position, on Facebook, in a manner that could be perceived as mocking management's solution to security in WHP. This is a problem for several reasons:

1. Management was not aware that the gate was up.
2. Owners get upset and anger is incited
3. No one knows who is on the facebook page. This post makes our community more vulnerable to crime.

Some folks, on social media, complain about the lack of transparency on the BOD. I would like to reverse that to say that there is a lack of transparency from owners to management. Some owners hear something or see something, and they go straight to Facebook. The BOD isn't aware of many concerns as the BOD doesn't monitor Facebook. Posting problems on social media does not provide a solution. If you want to be part of the solution, stop doing that and stop paying attention to it. We are all supposed to be on the same team here. If you can communicate concerns appropriately, they can be handled. This is OUR responsibility.

Melissa Peters

Acting President WHP
