

# Great News at WHP

**We should shout out to RANDY! Management received the following message on 8/24/2020:**

*I just wanted to let you know about an experience with the maintenance man. I am not sure of his name but he has dark hair. My grandson's chain came off of one of the borrowed bikes when we were riding near the marina. The maintenance truck pulled over and offered to help which was wonderful for me because I am not mechanically inclined. He did not have to do that and should be commended for going out of his way to set an example to my 5-year-old grandson of helping others.*

**The BOD and Management are thankful for this and we would like to encourage others to reach out about the good things you notice around our beautiful Park! Working together we will be #WHPstrong!**
