Hello Neighbors!! My husband Sam and I have been owners at WHP since 1999. There are many of you that I have not personally met but am looking forward in doing so. Perhaps we have crossed paths at community functions, the pool, pier in meetings or just a wave from our car in passing.

During the time we have been part of the WHP Community I have seen tremendous growth and opportunity.

As I become more familiar with our declarations and bylaws, I feel there are some opportunities for transition. I believe in our park, our association and in all members of our Community. For us, as a community, to flourish it requires a healthy dialogue between the Board and owners. I am passionate about the direction of our park and see this as a great time and opportunity to become involved.

I have a background in management and have been instrumental in creating and revising budgets, as well as developing and revising operational policies and procedures. Although this will be my first time as a Board member, I believe my past skills will be beneficial to the operations of our park.

My goal as a member of the Board would be to represent all owners and the best interest of the park with a strong work ethic, good communication, honesty and integrity. I feel strongly that I can successfully work with the park manager, fellow Board members and all owners, to make WHP a community we are proud and happy to be part of. Please feel free to reach out with any questions or concerns.

Thank you in advance for your consideration.
